## IF THE ANSWER IS 2 WORDS, PUT A "-" BETWEEN THEM!

### ACROSS

- 2 The largest dinosaur egg was about the size of a \_\_\_\_\_.
- 6 Creature that might be a pterosaur, claimed to live in New Guinea, flying by night, with a long tail, beak-like mouth, no feathers, and emitting light like a firefly.
- 7 Large fish thought (by evolutionists) to be the ancestor of 4-legged land animals, to have been extinct for 65 million years, and found alive in 1938 - swimming, not walking; deep in the ocean, not near land.
- 9 What dinosaurs had built-in helmets?
- 10 Creature reported by natives in the Congo River basin, that might be a sauropod dinosaur.
- 12 A scientist who studies fossils
- 13 Armored dinosaurs that often had long spikes in various parts of their bodies, and some had a tail

that ended with something like a sledgehammer head!

- 14 What dinosaur was carved on the wall of a temple in Cambodia several hundred years ago?
- 15 What does "dinosaur" mean, in English?

### DOWN

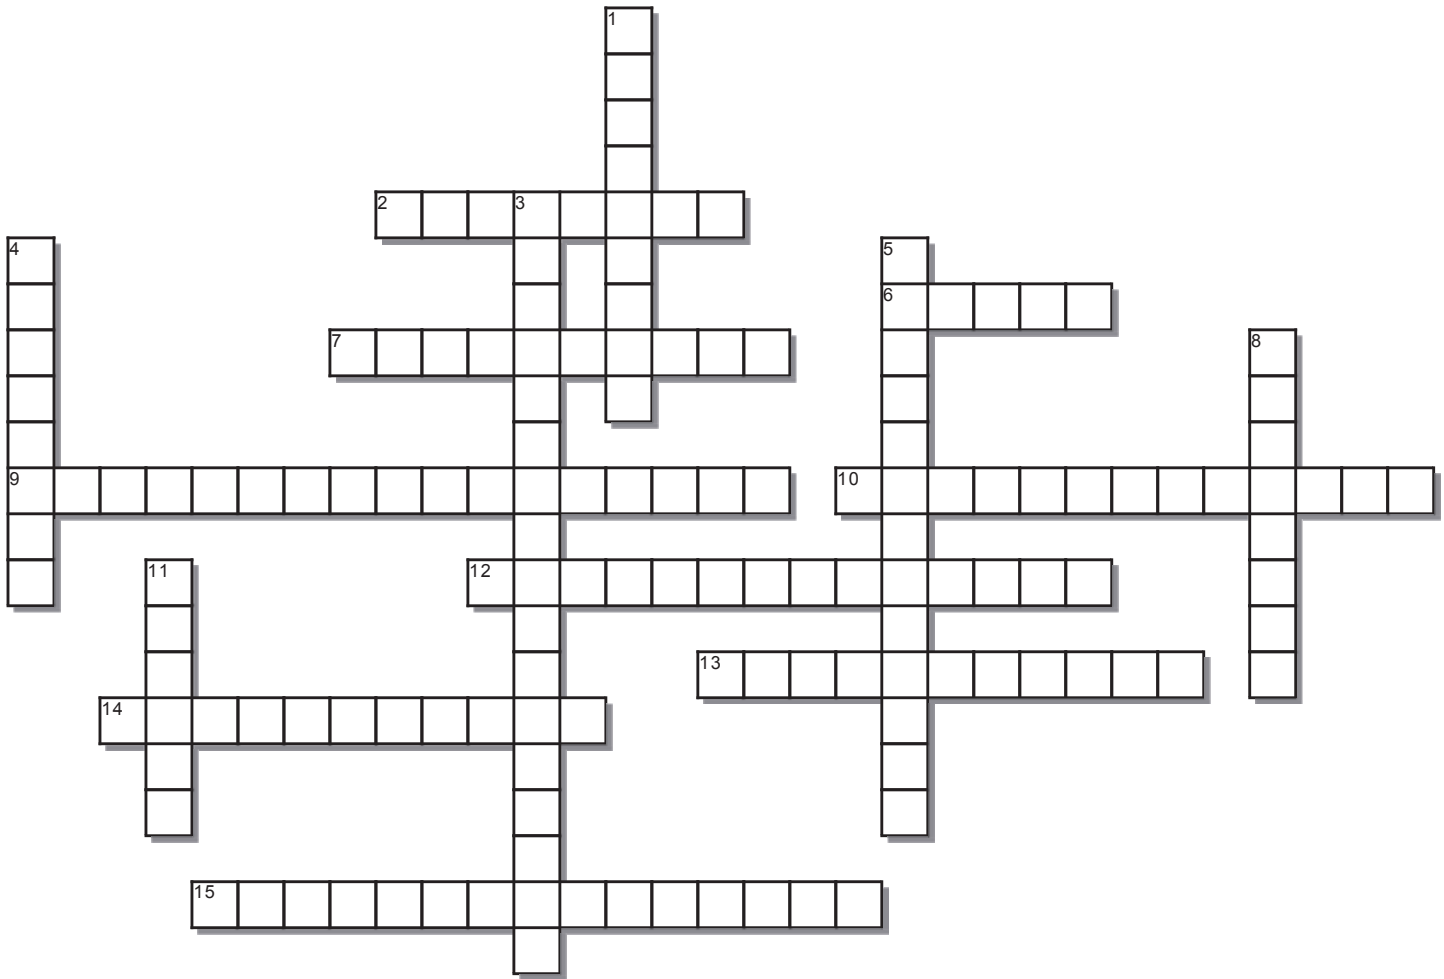

- 1 Animal that breathed/sneezed fire (.Jb 41)
- 3 What dinosaur walked on 2 feet and had very tiny arms?
- 4 Dinosaurs with very long necks and tails, and stood on 4 legs
- 5 The study of and search for unidentified animals, such as the ropen and claimed living dinosaurs.
- 8 What animal had a tail like the trunk of a cedar tree? (.Jb 40)
- 11 Bony or horny plates that cover the bodies of some animals, like some dinosaurs, turtles, and armadillos.

**WORD BANK:** TYRANNOSAURUS-REX, TERRIBLE-LIZARD, STEGOSAURUS, SCUTES, SAUROPOD, ROPEN, PALEONTOLOGIST, PACHYCEPHALOSAURS, MOKELE-MBEMBE, LEVIATHAN, FOOTBALL, CRYPTOZOOLOGY, COELACANTH, BEHEMOTH, ANKYLOSAURS

Name \_\_\_\_\_

# Dinosaurs!
